

Editor - in - Chief

It is with great pleasure that I announce the successful publication of the second issue of BKGC Scholar which has articles from a varied range across the departmental diaspora of the students. The most vibrant and dynamic mind are that of the youth pursuing their academic career. The college has successfully integrated the potential of its students in coming out with posing productive questions and processing their thinking and penning it down. It is known very well that writing and the thinking that comes with it is at the central of their college experience. With proper guidance and tutored discipline, the students have taken this step ahead towards a better scholastic future.

Here's a brief tour of what this journal has to offer. Students from various department has been given a platform for describing, narrating, explaining, classifying, comparing and contrasting, analyzing, solving problems, persuading, and so on. In getting this opportunity of going public with their writing by finding a medium and a genre, their sense of curiosity, metaphor, humor, and wonderment is actually enhanced in the presence of an audience. This no doubt has helped in improving their skill in how an idea can transform itself in the very process of being put into words and written down. Considering the fact that the college offers three disciplines and twenty-seven majors, it has been decided to select a few articles for each issue after having refereed by faculty members.

Bijoy Krishna Girls' College, Howrah was established with a mission to empower and enrich the girl student and has been claimed as the largest Girls' college in Asia. This little step is another stride in the direction of equipping them with confidence and conviction in their ability to shine and rise in their life.

Dr Ruma Bhattacharyya

Principal: BKGC & Editor - in - chief: BKGC SCHOLARS

Coordinator: IQAC

The publication of the second issue of students' journal, BKGC Scholars, is a proud initiative from IQAC and R&D Cell. This multi-disciplinary, bilingual and biannual journal has achieved its goal to set the young minds free to create a new world of their own. The spotlight of the journal is on articles of different disciplines.

Since late 2019, COVID-19 has thrown unprecedented challenges to the whole world creating havoc. Our life has come to a halt due to lockdown, leading to the uncertainty, and worries related to finances, education and job security. The insecurity about the future and the ceaseless news coverage has increased our sense of anxiety and stress. In this crucial time, we endeavour to support our students morally and mentally. A journal is the platform for students to expand their thinking ability, to improve their confidence and to come up with new ideas transcending text books. I believe that the positive attitude, hard work and innovative ideas of our students are reflected in their thought provoking articles.

The herculean task of editing and publishing this journal would not have been possible without earnest support of the members of R&D Cell of our college. On behalf of all the members of IQAC, I appreciate the role of my colleagues, students and non-teaching staff. Without their cooperation and support, IQAC would never have been able to create a good academic atmosphere in the college. Above all, we are always encouraged by positive attitude of our Principal Dr. Ruma Bhattacharyya. May our desire to achieve excellence be rewarded.

Best wishes,

Dr. Sweta Guha

Coordinator: IQAC & Associate Editor: BKGC SCHOLARS

Coordinator: R&D Cell

The R&D Cell of Bijoy Krishna Girls' College, Howrah is formed on 2018 by the Principal Dr. Ruma Bhattacharyya to assist the IQAC Cell of the Institution to develop by and large a research friendly environment for the faculty as well as student members of the college. For decades, Bijoy Krishna Girls' College is serving the nation as a supply line of quality researchers in the fields of Arts, Sciences, Commerce and Education. The biannual multidisciplinary students' journal BKGC SCHOLAR is providing a platform to our young and budding UG and PG students to showcase their independent thinking in the form of research articles under the guidance of their faculty mentors.

On behalf of the R&D Cell, I convey my sincere thanks to the members of the R&D Cell, the journal committee members, the faculty mentors of the students, the honourable advisory committee members, the technical editor, the volume editors, the IQAC Coordinator and the Editor-in-Chief for their continuous support, collaboration and encouragement for the publication of the second issue of volume 1 of the journal.

Students are advised to submit their articles through their faculty mentors via email to rd.bkgc@gmail.com throughout the year.

May success be with us, always.

Dr Rupak Bhattacharyya

Coordinator: R&D Cell & Managing Editor: BKGC SCHOLARS
